

ATTACHMENT 8 – CONTACT CENTER REFERENCE MATERIALS

NCI Contact Center Contract 2022 Volume and Handling Time

Telephone

Includes calls to 800-4-CANCER for cancer information, clinical trials and smoking cessation counseling, 877-44U-QUIT for smoking cessation counseling and 855-QUIT-VET for smoking cessation counseling for veterans.

NCI Contact Center Telephone

Volume Jan. 1, 2018 - Dec. 31, 2022

	Offered Calls	Monthly Average
800-4CANCER	48,280	4,023
877-44U-QUIT	10,519	877
855-QUIT-VET	15,170	1,264
Total	73,969	6,164

¹ These data include calls to 1-800-4-CANCER for cancer information, smoking cessation counseling and 1-877-44U-QUIT for smoking cessation counseling and 855-QUIT-VET for smoking cessation counseling for veterans - during hours of operation. Current hours of operation are Monday - Friday, 9 a.m. to 9 p.m. Eastern.

² Smoking Cessation includes calls taken from 1-800-44-U-QUIT, NCI's CIS Smoking Cessation Line, and 1-800-QUIT-NOW, the National Cessation Portal Number (*See IAA Descriptions Document*).

³ QUIT VET includes calls taken from 1-855-QUIT-VET and outbound calls based on current protocols. (*See IAA Descriptions Document*).

Average Handling Time for NCI Contact

Center Calls Jan. 1, 2022 - Dec. 31, 2022

Queue	Average ACD Time (Talk Time) ¹ (min:sec)	Average After Call Work Time (min:sec)
Cancer (English)	11:24	3:51
Cancer (Spanish)	12:42	4:09
Smoking Cessation (English)	10:09	3:51
Smoking Cessation (Spanish)	11:42	3:30
Overall Average	11:29	3:50

¹ ACD Call Time does not include the time when a caller is placed on hold during a call. Hold time data is only counted at the agent level, not at the skill level, so it is not available for each queue. The average hold time per call across the four queues is 3 min. 35 sec. (This does not include the time a caller is waiting in queue.)

**Average Handling Time for NCI Quit
Vet Calls Jan. 1, 2022 - Dec. 31, 2022**

Queue	Average ACD Time (TalkTime) ¹ (min:sec)	Average After Call Work Time (min:sec)
Quit Vet English	13:39	4:34
Quit Vet Spanish	20:09	5:33
Overall Average	16:54	5:34

Source: TTEC CUIC

LiveHelp

Chats using the service at <https://cissecure.nci.nih.gov/LiveHelp/welcome.asp>, available through www.cancer.gov and www.smokefree.gov.

LiveHelp Volume

Jan. 1, 2022 - Dec. 31, 2022

Queue	Chats Answered ¹	Abandon Chats ²	Offered Chats ³
Cancer	12,809	757	13,566
Smoking Cessation	11,598	673	12,271
Total	24,407	1,430	25,837

Source: LiveHelp Reporting Application

Average Handling Time for Chats

Jan. 1, 2022 -Dec. 31, 2022

Queue	Average Handling Time ¹ for Chats Answered (min:sec)	Average Handling Time ¹ for Chats Answered-But-No-Interaction (min:sec)
Cancer	15:18	07:32
Smoking Cessation	11:06	06:40
Overall Average	15:15	07:36

¹ Handling Time is the total time for each session and includes talk time and after call work time.

Source: LiveHelp Reporting Application

¹ Chats Answered are sessions where an interaction occurred between an Information Specialist and a user.

² Chats Abandoned are chats where the user disconnected before the chat was answered, or where an Information Specialist responded to an incoming session but there was no interaction with the user. This could be due to the user never sending a question after initiating a chat or due to a technical problem with the user's browser.

³ Offered Chats = Chats Answered + Chats Answered-But-No-Interaction + Chats Abandoned sessions where an Information Specialist responded to an incoming session but there was no interaction with the user.

E-mail

NCI's Cancer Information Service Quality Assurance Standards

Contractors must meet quality assurance standards for Service Access and Service Quality as outlined below. Quality Assurance for Service Access measure the efficiency of response to incoming inquiries; Quality Assurance for Service Quality measure the quality of service provided to the public on each access channel, based on customer expectations and measured by NCI provided quality assurance tools and systems.

Standard	Metric	Assessment Period	Method of Surveillance
SERVICE ACCESS			
1. Abandon Rate: Telephone	4% or less	Weekly average	Call management system
2. Service Level: Telephone	80% in 60 seconds	Weekly average	Call management system
3. Average Speed of Answer (ASA): Telephone	30 seconds or less	Weekly average	Call management system
4. Abandon Rate: <i>LiveHelp</i>	10%	Weekly average	RightNOW or other system specified by Government
5. Service Level: <i>LiveHelp</i>	80% in 20 seconds	Weekly average	RightNOW or other system specified by Government
6. E-mail Response Time	4 business days or less	Weekly	RightNOW or other system specified by Government
7. Available Time	99%	Monthly	RightNOW or other system specified by Government
SERVICE QUALITY			
Quality scores on all access channels	Average Score: 90%	Quarterly	Calabrio or other system specified by Government
Customer Satisfaction scores	Meet or exceed score of 86.	Quarterly	OMB Customer Service Demographics Collection
